Our Classics:

Heraeus offers casted gold bars in four sizes. (left image)

- 100 g
24 x 45.5 x 6 mm
- 250 g
31 x 50.5 x 9.3 mm
- 500 g
41 x 91 x 5.4 mm
- 1000 g
51 x 116 x 9.2 mm

*All dimensions refer to width x length x height.
Cast bars are pictured significantly smaller.
Measurements may deviate due to production tolerances.*

As a Gift for Investment:

Minted bars are offered in seven sizes ranging from 1 gram to 100 grams.

8.7 x 15 x 0.5 mm

14 x 23 x 1 mm

18.5 x 31.5 x 1.1 mm

23.3 x 40.4 x 1.3 mm

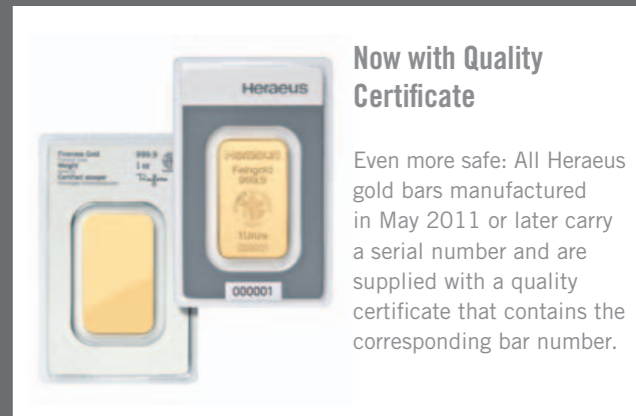

23.3 x 40.4 x 1.8 mm

28.5 x 49.7 x 2 mm

28.5 x 49.7 x 3.9 mm

Now with Quality Certificate

Even more safe: All Heraeus gold bars manufactured in May 2011 or later carry a serial number and are supplied with a quality certificate that contains the corresponding bar number.

Environmentally Friendly Packaging

Ideal presentation: The new outer packaging is not only attractive and with two weld seams extra firm, it is also made of the environmentally friendly plastic PET unlike previous packaging solutions.

Heraeus precious metal bars are distributed exclusively through banks, savings banks and leading precious metal dealers. Purchases of gold bars are exempt from value-added tax. Purchases of silver, platinum and palladium bars are subject to value-added tax at the prevailing rate.

Kinebars

The minted Heraeus gold bars are available as well with an additional, also visually very appealing security feature, the so called Kinegram®, at an extra charge. Kinebars are not only offered at the sizes mentioned on the front side, but also at a weight of 2 grams.

Heraeus Purchasing Policy

Heraeus is a globally operating precious metal and technology Group that has been family owned for 160 years. With a Code of Conduct that contains binding rules and regulations, e.g. regarding the acceptance of precious metals, the Group has committed itself to high standards that apply to all employees. Accordingly, all our bars are manufactured only out of materials originating from mines and suppliers approved by Heraeus or from recycling gold.
